IPACK

“THE PACKAGING MATTERS”

AN ISO 9001 . 2015 COMPANY

(Prev. known as PSP INDUSTRIAL KIRANA PVT. LTD.)

1. CARTON SEALING MACHINES

IK-TM-BSA-01

Semi Auto batch taping Machine for Smooth and fast taping operations with rigid structure

IK-TM-BSA-01

Auto online flap closure taping machine for automation and taping with great speed and efficiency

IK-TM-RAM-01

Random taping machine with flap closure for line automation.

IK-TM-RSA-01

Random carton sealing for Taping different sizes of carton boxes one after other

IK-TM-GFC-01

Hot melting Glueing with flap closure machine

2. STRETCH AND SHRINK WRAPPING MACHINES

IK-W-MINI

Basic simple carton wrapping machine

IK-W-CW-01

Carton wrapper with pneumatic push and elevator for adjustment

IK-W-CW-02

Carton/drum wrapper with pneumatic holder and 250 to 300% stretch unit.

IK-W-PW-01

Pallet wrapping machine with turn table and stretch unit with stretchability up to 300%

IK-W-PW-02

Pallet wrapping machine with pneumatic holder

IK - ROBO WRAPPER

Robo wrapper for wrapping large packages which requires moving pallet wrapper around it

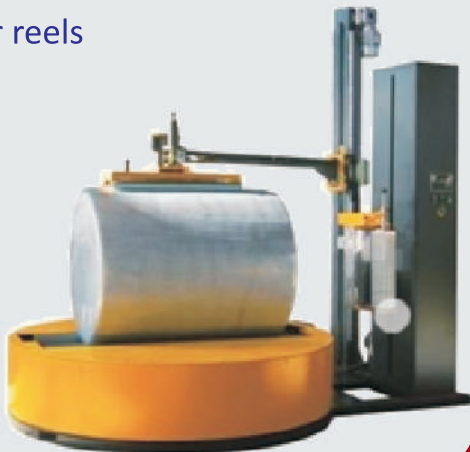

STRETCH AND SHRINK WRAPPING MACHINES

IK-W-RWP-01

Wrapping machine for
Large Paper reels

IK-SHR-01

Basic shrink wrapping machine
with seal and shrink chamber

IK-SHR-TUN

Shrink tunnel for
shrink wrapping

IK-SHR-TUN-LSEALER

Combo type L sealer with
Shrink tunnel machine

3. STRAPPING MACHINES

IK-SM-MSM-01
Manual strapping
Machine for strapping
of boxes

IK-SM-MSM-02
Manual beltless strapping machine
for strapping of carton boxes

IK-SM-SA-01
Automatic button/paddle press
Maintenance free strapping machine

IK-SAM-AM-02
Automatic online power
roller box strapping machine

IK-SM-AM-03
Fully Automatic online
belt driven strapping Machine

IK-SM-VAM-05
Verticle fully automatic
Power roller
strapping machine

IK-SM-SSAM-06
Automatic strapping
Machine for side
seal, Strapack.

IK-SM-PFAM-07
Automatic high speed
strapping machine for
paper and film tape
banding machine

IK-SM-CAM-08
Fully Automatic Box
strapping machine with
Pressing for corrugated bundle

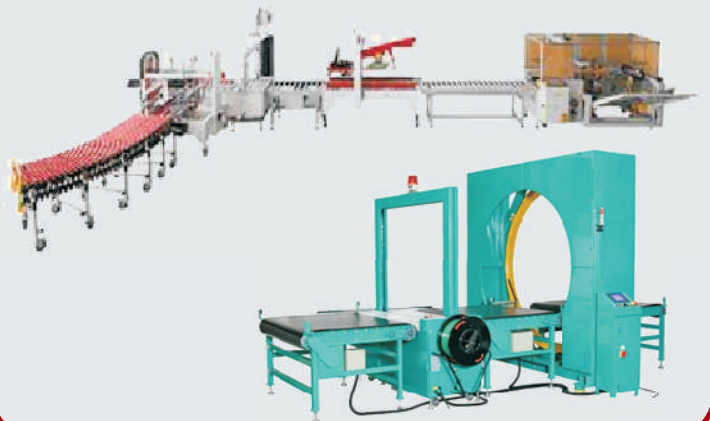

4. LINE AUTOMATION FOR WAREHOUSE

Roller Conveyors For Automation

Automation line for Warehouse

Online auto strapping with Horizontal wrapping Machine

Online Check Weighing

5. PACKAGING TOOLS

Battery Operated Strapping tool

Tape Dispenser

Manual strapping Tool

Pneumatic Strapping Tool

**“A hen’s egg is, quite Simply,
a work of art, a masterpiece
of design and construction
with, it has to be said,
brilliant packaging!”**

6. STRETCH SHRINK FILM AND TAPES

High quality stretch film to lock and secure cased goods with different specifications for different Purposes

7. PP AND PET STRAPS

High quality stretch film to lock and secure cased goods with different specifications for different purposes

**“ Good Packaging
Protects Your product
Great Packaging
Protects Your brand ”**

8. DUNNAGE AIR BAGS

Dunnage bags, also known as airbags, and inflatable bags, are used to secure and stabilize cargo. provide convenient and cost-effective cargo stabilization in ISO sea containers, closed railcars, trucks, and oceangoing vessels. Dunnage bags are placed in the void between the cargo. Dunnage bags can be used in all modes of transportation. Besides being usable in all modes of transportation, almost every type of cargo can be secured with the use of dunnage bags, including break bulk and palletized cargo, coils, barrels, cases, and crates.

9. THERMAL SHEETS FOR SECONDARY PACKAGING

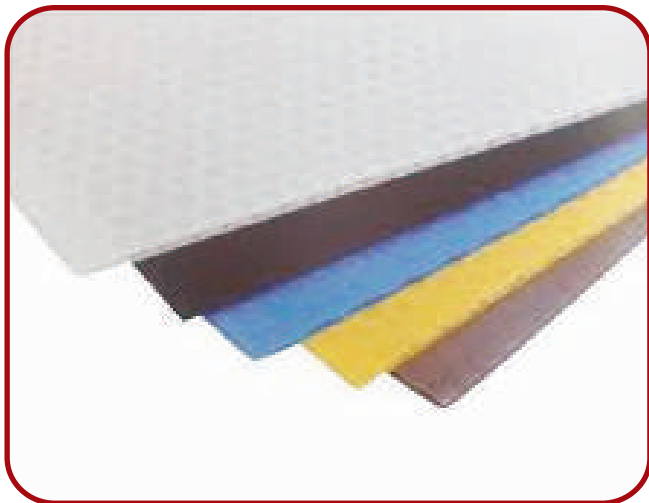

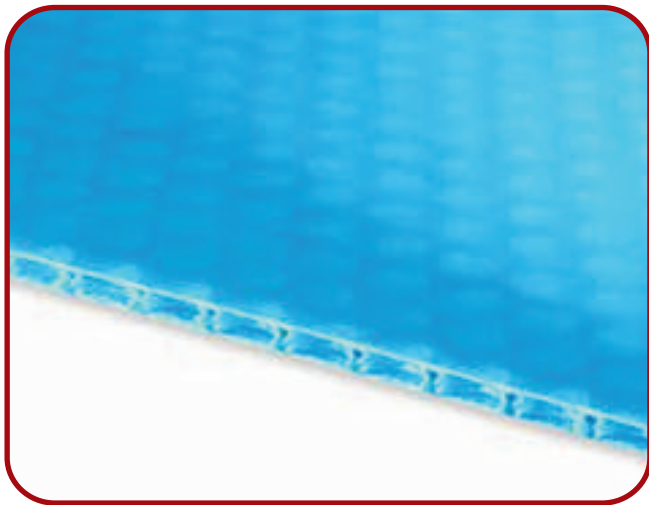

Thermal pallet protectors (pallet covers) are the most efficient and reliable solution for companies which export their goods and want to minimize temperature fluctuation. Thermal pallet protectors keeps a stable environment for pallet units during transportation by Air or Sea. These pallet covers are a great solution for mixed shipments or less than truckload carriers, when only some pallets must be protected against temperature changes.

10. INTERLAYER SHEETS AND BUBBLE GUARD FOR SURFACE PROTECTION

The cardboard plate prevents pollution and damage associated with the use of a pallet. The cardboard format acts as a shock absorber and avoids perforations. It avoids marks created by wooden planks or openwork patterns of plastic pallets. Finally, the plate prevents the boxes from sagging between the interstices of the boards. The interlayer also prevents friction and deterioration of the products between them.

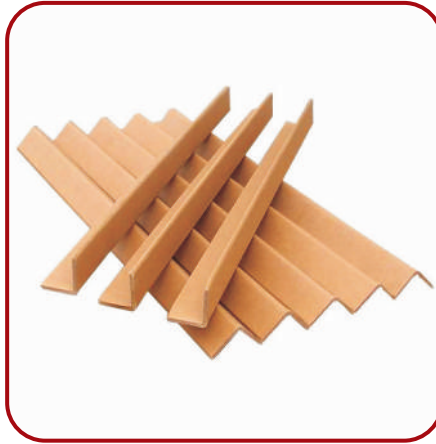

OTHER PACKING PRODUCTS

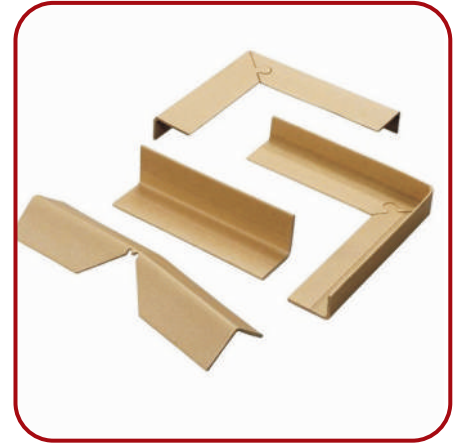

Air Bubble Roll

Angle Boards

Edge Boards

Corrugated Sheets

Air Bubble Pouches

Foam Sheets

Strapping Belt

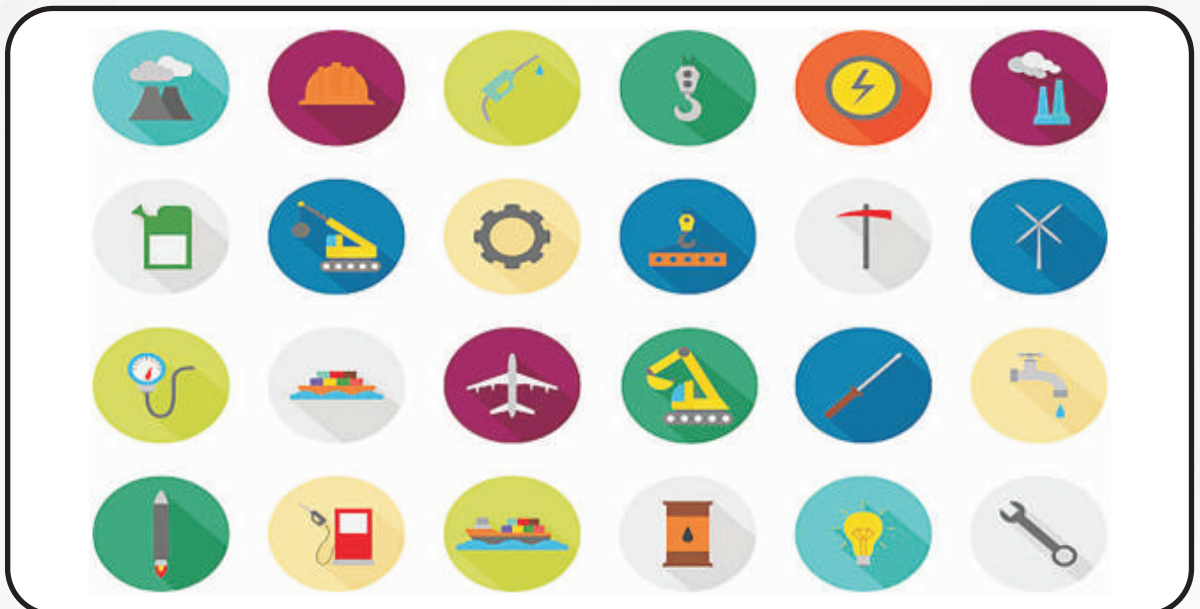

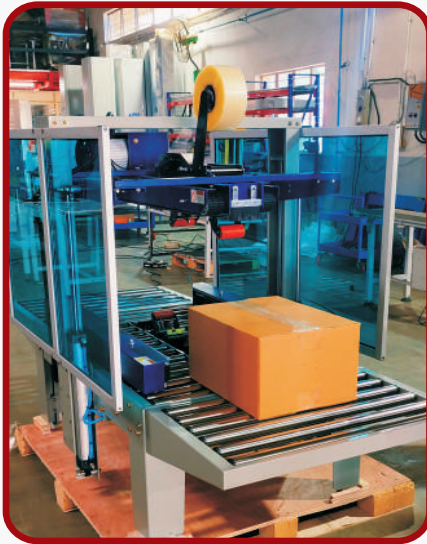

Plastic Cover Sheets

Tarpaulin sheets
